

MATHEMATICS PAPER 1
Question-Answer Book

8.30 am – 10.30 am (2 hours)

This paper must be answered in English

1. Write your Candidate Number, Centre Number and Seat Number in the spaces provided on this cover.
2. This paper consists of THREE sections, A(1), A(2) and B. Each section carries 33 marks.
3. Attempt ALL questions in Sections A(1) and A(2), and any THREE questions in Section B. Write your answers in the spaces provided in this Question-Answer Book. Supplementary answer sheets will be supplied on request. Write your Candidate Number on each sheet and fasten them with string inside this book.
4. Write the question numbers of the questions you have attempted in Section B in the spaces provided on this cover.
5. Unless otherwise specified, all working must be clearly shown.
6. Unless otherwise specified, numerical answers should be either exact or correct to 3 significant figures.
7. The diagrams in this paper are not necessarily drawn to scale.

FORMULAS FOR REFERENCE

SPHERE	Surface area	=	$4\pi r^2$
	Volume	=	$\frac{4}{3}\pi r^3$
CYLINDER	Area of curved surface	=	$2\pi rh$
	Volume	=	$\pi r^2 h$
CONE	Area of curved surface	=	πrl
	Volume	=	$\frac{1}{3}\pi r^2 h$
PRISM	Volume	=	base area \times height
PYRAMID	Volume	=	$\frac{1}{3} \times$ base area \times height

5. In Figure 2, find the bearing of B from A .

6. Factorize

- (a) $a^2 - ab + 2a - 2b$,
- (b) $169y^2 - 25$.

15. In Figure 7(a), F_1, F_2, F_3, \dots are square frames. The perimeter of F_1 is 8 cm. Starting from F_2 , the perimeter of each square frame is 4 cm longer than the perimeter of the previous frame.

Figure 7(a)

- (a) (i) Find the perimeter of F_{10} .
- (ii) If a thin metal wire of length 1 000 cm is cut into pieces and these pieces are then bent to form the above square frames, find the greatest number of distinct square frames that can be formed.

(5 marks)

(b)

Figure 7(b)

Figure 7(b) shows three similar solid right pyramids S_1, S_2 and S_3 . The total lengths of the four sides of the square bases of S_1, S_2 and S_3 are equal to the perimeters of F_1, F_2 and F_3 respectively.

- (i) Do the volumes of S_1, S_2 and S_3 form a geometric sequence? Explain your answer.
- (ii) When the length of the slant edge of S_1 is 5 cm, find the volume of S_3 . Give the answer in surd form.

(6 marks)
