# THREE S.6 STUDENTS ARE AWARDED THEIR PAINTINGS ARE DISPLAYED IN EXHIBITION IN CITYU

《Daily》 is about the routines of most office workers in the city. The crowded environment makes them feel exhausted and weary of life.

Inside the train, the passengers are only caring about their own business. Outside the train, a father and his little daughter are hand in hand.

I am like a conspicuous clown with a bright personality. However, I found myself a social misfit. I can only live alone, which brings loneliness and despair.
